

Vendor Profile - Stoelting LLC

In 1905 Otto and Adolf Stoelting (sons of German immigrants) went into business with two partners, selling hardware and operating a sheet metal shop (fabricating tanks for farmers and cheese makers). In Third brother (Gustav) joined the newly formed business: Stoelting Brothers Company.

In 1939 Stoelting was contracted to engineer and build the first soft ice cream dispenser for the Home Made Ice Cream Company (now Dairy Queen), creating a new market. Dairy Queens throughout the country now continue to use Stoelting Equipment nearly 70 years later.

In 2006 Stoelting purchased the Ross Frozen Custard line and commence a partnership with Italian based Telme, to at Frozen Custard Machines and Vertical Batch freezers to the line up

The Stoelting manufacturing plant is located in America's Dairyland, Kiel WI and produced all facets of Soft Serve, Custard, Shake, Slush and Batch Freezer Equipment. In fact their recent advertisements state the company "Has you covered" selling equipment for every fact of the frozen dessert market.

Stoelting has distributors in every state which offer sales and service support for the complete line. For more information please go to www.stoelting.com
